### AMERICA'S WILDLIFE HAS ITS PICTURE TAKEN

Just in case you like animal photographs, the first "Wildlife Portrait Series" has been produced by the Bureau of Sport Fisheries and Wildlife, Department of the Interior.

This premiere edition includes ten 14 x 17-inch prints of native wildlife, in four colors, reproduced from original color transparencies taken by BSWF photographers.

The sets are for teachers, students of nature, home decorators and gift buyers. Accompanying the prints, which are bordered for framing, is a brief description of each species pictured.

The variety represented includes trumpeter swans, desert bighorn sheep, antelope, a bison and a black-footed ferret, rarest mammal in North America.

Sets are available from the Superintendent of Documents, Government Printing Office, Washington, D. C. 20402, at \$2.00 per set (Catalog No. I 49.71:1).
